

Drop Dead date for equipment to be at the AIS for shipment to Nauru: May 14, 1999

In order to get all of the equipment to Nauru for Nauru99, we need to have all of the equipment/spares going to Nauru at the AIS (ARCS Integration Site) in Albuquerque by May 14, 1999. This should get the equipment to Nauru by June 10, 1999.

Please, send your equipment with a packing list, showing what you are shipping; by Manufacturer, Part No., Serial Number, Value, Ultimate Destination (Nauru for Nauru 99), and who is sending the equipment (your name, address, and phone number) to the AIS in Albuquerque. This information is critical for Customs. Send your equipment to the following address:

ARCS Site, Bldg. 898
Attn: Monty Apple/Rose Marra
NW Corner of H Ave. & 20th St., KAFB
Albuquerque, NM 87123
505-284-3190

Air freight Size and weight restrictions to Nauru:

Air Nauru: Recommended box size & weight: 30"L x 25"W x 20"H, 45 lbs.

Max shipping size & weight: 40" L x 30" W x 30" H, 200 lbs.

The difference between Recommended and Max size and weight is that it could take 1-2 weeks longer to get larger items to Nauru as anything over the recommended size and weight requires two people to handle at remote airports.

DHL: Max shipping size: 46" L x 35" W x 47" H, 550 lbs. Anything over 110 lbs. requires special handling and could take up to 2 weeks longer. DHL is very expensive and we should use Air Nauru if at all possible.

DHL's International Rush Weight Limit is 70 lbs. but more expensive than you can imagine.
